Faking your own death can be difficult but of course so can living your life.

2004 no more. 2005 still alive. Sorry zombies.

When you express happiness when someone has died that is good mourning.

People who are underweight are easily crushed.

You shouldn't worry that people who say to you "Good night" will kill you in your sleep.
Similar also are people who say "Good day" except they may kill you in your sleep.

A pick ax is like a magic 8 ball except used for much more dangerous decisions.

Digging/Dirt

M.A.R.'S Lesson for Pie Inc. Day
Getting so mad that you could dig until you find dirt isn't getting mad at all so since you're not mad celebrate Pie Inc. Day & eat a pie.

Organizing a mile's worth of dirt is a pointless task.

Digging a small hole & filling it with water is a waste of time, if you intend it to be put on a map, unless you're drawing your own map.

Digging something up can be exciting & illegal.

If your shirt is dirtier than dirt, start mocking dirt & then.. get thrown into an asylum for laughing at dirt.

When one thinks "I can't get any lower than this" better start digging.

Digging up a corpse is fun as long as you don't get done.

Ground up=Air

If you're depressed get a shovel go into your backyard & start digging. I guarantee you'll never feel like dirt again.

Flashback Edition:

You can change the world if you use a shovel.

Drinking Books

Drinking Books cannot buy you a house. Drinking books can however get you thrown into a mental ward.

Don't be a crook, Drink a book.

Family

A writing utensil is not something you use to talk to your food with; when your parents tell you to be quiet at the dinner table.

When a baby leaks some call it an accident. When a car leaks the hole is plugged.

The Ultimate Prank to pull on Halloween is to be good.

The best time to train up a child is on Halloween. This way you won't look weird dressing your child up like a train. Even better if you have multiple children you can dress them as one cart each with the fattest one or least favorite (same thing) being the caboose.

Many fathers are bums because when in the car with their kids they are always looking for a hand out.

You can't put a price on happiness except with a Happy Meal.

You can't put a price on family unless it is bail.

The reason why old tyme kings had multiple wives is because it takes a lot of women to do castle work as opposed to housework.

Single people, live everyday as though it were the last day of your life. Even better married guys, live everyday as though it were the first day of your wife.

Why do people complain when something is on their head? If someone drops a hat from a 5 story building onto your head, you would just be like "hey a free hat." But if someone drops a brick from the same building on your head, you would just be like "ow! I'm in hideous pain" or knocked unconscious.

Thieves maybe able to steal your material possessions but they can't steal your sadness &/or anger.

Less people would procrastinate if the word were negativecrastinate.

People

If someone asks a group of people "Is everything ok?", the person who is not ok probably can't answer due to not being ok.

Asking someone to do something & them doing it is never sure. Getting someone to run when you poo something will get them out that door.

Getting lost in the woods at night can show you how much of a man you are. It can also show you how much of a man you aren't.

Why do people complain when something is on their head? If someone drops a hat from a 5 story building onto your head, you would just be like "hey a free hat." But if someone drops a brick from the same building on your head, you would just be like "ow! I'm in hideous pain" or knocked unconscious.

Some people will never learn. The sad thing is most of those people go to school.

The reason why white supremacists are bald is because they don't even like black hair.

Pessimism

Stop being pessimistic!

Don't think of them as empty threats (promises). Think of them as unfulfilled threats (promises).

When one thinks "I can't get any lower than this" better start digging.

Never say "things can't get worse" because then here comes the hearse.

Never give up your dreams because if you do you'll only have nightmares.

Time/Age

The fastest way to pass 2 hours is to set your clock wrong & walk by.

Catastrosphere's Lost Lesson

If anyone ever says to you 'How are you doing today?' in the morning, just say 'It is too early in the day to properly evaluate this question.'

Don't know the difference of past, present, & future?

Here you go:

past- Something in front of you

Present- a form of gift

Future- a small amount of ture

Humans have skin, Robots have tin, Time has when.

Making a time machine is easy. Take apart a clock & put it back together.

Wrinkled pieces of paper aren't old they just smoke a lot.

If today is a good day, today will always be a good day because today only happens once.

Start the week off on the right foot.

Just make sure you use the other during the week else you'll have trouble.

At one point doing things the old-fashioned way will seem new again.

Are you feeling low because it's the 22nd, well cheer up.

I'm sure your ceiling feels worse.

If it's cold outside & you don't have the month of May,
buy a new calendar

Today is Tuesday. I'm sure some of you needed to
know that.

Looking for a December to remember? Try not to see
anything suspicious or the government will erase your
memory again

Monday is a fun day to complain.

If you are really poor & can't afford a calendar just
use the same one & be laughed at by all the people
you know the whole year.

The one thing the past has taught me is that time
goes by.

The things I am reminded of the most are memories.

When planning for the future use a calendar.

When planning for the past.. don't plan for the past.

Rituals can become ritualistic so spice it up by setting
pepper on fire & throwing it in your face.

The best time to catch a thief is daylight savings time
say "Don't forget to give back my clock."

May is the most polite month.

Dogs go on dates too if you run out of newspaper.

If you are ever late don't worry but instead be in a
hurry.

If you have to wait a long time, be late.

The summer is the best time to have hot fun.

Patience is easily obtained if you are willing to wait for it.

Waiting until fall to do spring-cleaning can really make you realize why it is primarily done in the spring.

When someone is late you lose wait.

As time passes so shall men.

The only reason why people retire is because as they get older their hearts can't take the sound of an alarm clock.

Shooting a clock is the busy man's equivalent to wasting time..

Flashback Edition:

The latest news is no longer informative.

Procrastinator's Edition:

The more you hesitate the longer others wait & from that they may become irate. Those people will then debate your personal weight & being unable to relate to your hesitate trait they will turn to hate but won't be able to find the words to conjugate or create so their hate will abate because they can't desecrate your hesitate trait.

2004 no more. 2005 still alive. Sorry zombies.

Anticipation runs high in the new year. That is why we waited until the seventh to do this lesson.

You gotta fight for your right to party but not for your right to be tardy because no one has that right. Be on time!

Your days are numbered if you obey a calendar.

Every time you turn the page know that in the time you spent on that you did age.

It is wise to say to your clock "Do not be alarmed"

Spending time & spending money can occur at the same time.

No one has ever run out of time before.

People with time to spare rarely give it to others.

If noon were at 5pm gunslingers would say, "It's high five."

The past creates the present.

Do what you have to do when you want to do it unless there is a time you have to do it.

The past is our stepping-stone to new & wonderful futures.

Each day changes things or makes them more the same.

The hardest thing about being young is getting old.

Even evening is uneven depending upon your horizon.

You know you have a wait problem when you are impatient.

Obvious Edition:

Growing old is like growing anything else. It takes time.

Day is a lot like night. They both consist of time.

Closing your eyes at night is somewhat pointless because it's already dark.

The best time to set your clock is at 12.

Should times sometimes override good times.

Summer salt & seasoning salt is the same thing.

It is better to call fall autumn because it doesn't hurt so much

A drug addict's favorite time of day is high noon.

Summer isn't a bummer but kids do get dumber.

Being a medical patient makes you patient.

If an elevator's weight limit is surpassed a new seemingly unlimited wait will ensue.

Winter could have been called fall because of all the slippery ice.

Transportation/Travel

When properly observing a stop sign. You do not need a go sign to proceed (after the stop).

When seeing a plastic bag blow in the wind, don't go after it because it's usually blowing across the heavily trafficked road.

When going on a car trip the best way to ensure you get there is keep enough gas in it to not run out.

Just because you can work on the railroad doesn't mean you can whistle.

If you ever become a sailor & use a map remember the real land doesn't have its name written on it.

If you are going to Alabama & don't have a sand box you may or may not be in trouble.

If driving & you take a wrong street the 2 best ways to get back are:

1. Drive recklessly across people's lawns.
2. Park in someone's garage & loiter soliciting as much as possible.

Flash Forward Edition: 2036 Piemerica

These new jet packs going around may seem fun but they can give you cancer if you crash into a cancer testing center.

Cars cannot fly so stay away from that downed bridge.

The only way to truly lye on a bridge is to get hit by a car. Then you are lying flat on the bridge.

An air crash doesn't make a plane go faster. So don't try to blow one up if you're late.

For some reason every time I think of the words 'getting hit by a car' I think of October 22, 2001.

If you're ever angry because you're stuck in traffic. Just laugh it off unless that laugh is a maniacal laugh.

Treading on thin ice is much more dangerous than walking on it.

Wheezing is not a good reason to rip off your eyebrows, grape juice stain a window seal, & then take your car back & forth through a toll booth just to get change for your brick brained snowman when its shoes bake in the oven for 4 ticks of a land mine.

It's always better to take a short cut, unless it involves the mob.

Hailing a cab is sacrilegious.

When a baby leaks some call it an accident. When a car leaks the hole is plugged.

I trained the train to run me over. I was sad to see it go.

Take a map of your nap you'll be surprised where you have gone.

Don't go on a trip because public urination is illegal.

Digging a small hole & filling it with water is a waste of time, if you intend it to be put on a map, unless you're drawing your own map.

Catastrosphere's Tip:

When starting the engine of your car always be aware that someone may have planted... a tree in your drive way.

Having trouble getting past a moat? Use a boat.

Don't wreck your car cause if you do you might end up with one less shoe.

A good idea can take you a long way if the idea involves transportation.

If you don't want your bills to be sky-high, stop them before they get on that plane.

Let something drive you crazy.
It's better to be chauffeured than to drive yourself there.

When crossing the road, stop & think long & hard about your safety.

When crashing a car on purpose remember you are crashing a car on purpose!

When arguing at sea don't go overboard.

If you are ever in an autocar accident say, "I am a wreck"

If you run while wearing a jogging suit you can be sued for false advertising.

When driving & dialing a cell phone at the same time beware for a fellow motorist may suggest you dial with an alternate finger.

Train owners in the 1800s were very bad people so that they could get much coal every Christmas.
Roads don't hit back.

Look both ways before you cross the street because you never know what you may step in.

You can take a stroll in a bowl if you use it as a shoe & have a lot of glue.

Flashback Edition:
Double reverse equals go.

Debt is the one place that most people don't want to go to yet many take permanent vacations there.

The faster your run the longer you'll stay inside.

There is plenty of room on a spaceship.

Both fast & slow moving people may tell you to "hold on."

The longer cops patrol the more petrol they use.

Americans prefer to store fat in their spare tire rather than air.

The highest that one can count is in an airplane.

Driveways are used for parking too.

Exit signs never leave.

A good place to fast is to fast in your seatbelt.

The sky is the limit but not for astronauts.

Airplanes are easier to wish upon & they kinda look like shooting stars too.

Percentage wise people who lie in the middle of the road did not do it by choice.

Drifters don't walk with a purpose.

Ignorant Lesson:

Climbing a mountain is much like climbing a fountain except you don't get wet.

A fresh can of soda cannot fix a flat tire.

Love can be fleeting but so can ships.

People who drive recklessly seem to wreck the most.

Scooters don't sound as though they would be fast vehicles.

Bicycles will let anyone ride them.

People who live life in the fast lane travel in RVs.

Cars are always exhausted when on the go

Outer space is no reason for haste.

From a helicopter you can see the world. From a plane you can see the sky. From space you can see space. But you can never truly see our eyes.

If your car doesn't start the reason is because you pushed the break.

The reason why red lights are red is because if you drive while one is on you can become red too. Thick fog can lead to thick log.

Stop signs are written in manuscript, quite deceiving.

Many fathers are bums because when in the car with their kids they are always looking for a hand out.

The best vehicle to get in a wreck with is an ambulance.

The reason why people refer to cars as feminine is because most car lovers are men & they don't want to sound gay.

Tire irons do not promote tire traction.

It's easy to catch a train because it leaves tracks everywhere it goes.

Airplanes are like people because they enjoy taking off then landing.

Violence

When someone tells you it's good to give, they are not talking about savage beatings or other violent acts.

Hiring a thug may help someone to get savagely beaten. Hiring a mug may help someone to drink something after they've eaten.

If a potato wedge had arms it would probably try to punch you a couple of times before you eat it, but you wouldn't care since it had no hands.

If anyone ever tells you to put on a happy face & you see someone smiling & decide to rip their face off they nor their face will be happy anymore.

A lesson for the Ages

It's hot when summer rolls around so: Killing in cold blood won't cool you off & If you ever say to yourself "animals shed fur to cool off maybe I should shed blood" Well, don't give it a second thought or else you might do it twice.

If you're gonna kill make sure to thrill. That way people won't get as mad.

If a thug draws a knife on you wash it off.

If you try to fight the urge to fight, you've already lost.

Revenge can be sweet if coated in sugar.

If you're walking on the sidewalk you shouldn't walk sideways you should get a Savage Beating.

When one has learned all there is to learn, one should

The End

So this is the end of the book. It has been a long ride making this book, good thing typoing ohn aye laptopp en ai bus does n't mess u^p thengs lyke et wuld wif hand righting scribblys end aul.

Whenever I first started writing lessons, well actually ever since I 'found' the entire lesson catalog from a poor Tuvalun boy, I've always wanted to get money from people. Now that this book has been dropped, as the non-book drinkers say, I will gain the fortune of ten East Timor men!

Another thing I've learned from making this book is that you can't drink a book before it is published. Can you say "Floccinaucinihilipilification" (yep that describes this book) or just say "electrocuted." Aww it's so cute.

I think after I become rich I'll visit the country of Krungthepmahanakornamornratanakosinmahintaray utthayamahadilokphopnopparatrajathaniburiromud omrajaniwesmahasatharnamornphimarnavatarnsathi tsakkattiyavisanukamprasit (I only said it like that because the simple version wouldn't be appropriate for a family friendly book such as this).

But this wasn't the first time, oh no we went to the college barn because we are old and didn't have skeletons in our classrooms or closets and science helps us discover things such as the readily made bed which is for sleeping. If I were sleeping I'd be a sleepwalker because I never exercise during the day and of course I don't want to do so. If you can't read consonants then the end of the last sentence said "ooo", are you scared?

arrogant/intelligent people have things they can learn..
"It is not what you do that counts but rather why
you do it. Unless what you do is count."

And you'll even be more able to survive the mean
streets.. "If a thug draws a knife on you wash it off."

Lesson Mania isn't just hilarious it's huh?larious!
